

Shared Earth Network's Recycle Telephone Books Project May 1st – July 31st

Join faith groups in the Shared Earth Network in our city-wide project to collect and recycle old telephone books!

The City of Flagstaff has special bins at the Norton Recycle Center on Butler to recycle telephone books only from May 1st – July 31st. Take books you have collected there or contact Shared Earth Network (info@sharedearthnetwork.org or Tish at 606-0882) to pick up your books.

Please remove all plastic wrapping from the books.

We suggest you assign a Recycling Coordinator for this project to stay in touch with us. Please keep track of the number of telephone books your group recycles and let us know at info@sharedearthnetwork.org or Tish at 606-0882. The faith group that recycles the most telephone books will receive \$100 for their earth care ministry.

We have a goal to recycle 5,000 telephone books this year!!!!!!

**When you recycle 500 telephone books, you save:
7,000 gallons of water, 3.3 cubic yards of landfill space, 24 average sized trees, and enough kilowatts of electricity to power an average home for six months!**

Think of the savings when we recycle thousands of telephone books!

Did you know you can opt out of receiving your future telephone books?
